The **International Conference on Intelligent Systems Design and Applications** (**ISDA**) is a major annual international conference to bring together researchers, engineers, developers and practitioners from academia and industry working in all interdisciplinary areas of computational intelligence and system engineering to share their experience, and exchange and cross-fertilize their ideas.

Topics:

A) Intelligent Systems Architectures and Applications
B) Intelligent Image and Signal Processing
C) Intelligent Internet Modelling
D) Intelligent Data mining
E) Intelligent Business Systems
F) Intelligent Control and Automation
G) Intelligent Agents
H) Intelligent Knowledge Management
I) Innovative Information Security
J) Innovative Networking and Communication Techniques
K) Web Intelligence

Paper Submission:

Prospective authors are invited to submit a full paper of 4-6 pages (PDF). Authors must follow the **double column IEEE format**. The submission of a paper implies that the paper is original and has not been submitted under review or copyright protected by the author. All papers should be submitted electronically via the Online Paper Submission System, which is located at http://www.uco.es/isda2011. The format of both the initial submissions and the final accepted papers must be in PDF. All submitted papers will be refereed by experts in the respective fields according to the criteria of originality, significance, quality and clarity. The authors of accepted papers will have an opportunity to revise their papers and take the referees' comments and suggestions into consideration before submitting the final papers. All accepted papers with paid registration will be included in the Proceedings of ISDA'11. Selected papers will be published in special issues of a selection of International Journals (to be announced).
